The Star of Kings has two spaces that can be used for performances.

The basement at the Star of Kings is a function room that is regularly used for comedy, cabaret and live gigs. It is a unique space that comes with a stage, air conditioning, spot lighting and a full PA system.

The seating is eclectic and adaptable up to a maximum of 70, plus a few more standing.

The basement is available Monday to Thursday during August. We ask a deposit of £50 to confirm your show, refundable upon arrival. There are two slots available: 2-6pm and 6:30-11pm.

We also have a first floor function room for up to 50 seated. The function room is suitable for more stripped back performances that only require a microphone. Availability on request.

You will be responsible for all ticketing and box office. A sound engineer is available for an additional charge of £90.
